Humane Voters of Arizona
2006 General Election Endorsements

Candidate endorsements are based upon a combination of factors, including response to the HVA questionnaire, and for incumbents, their scores on legislative report cards. Other factors taken into consideration include how candidates have influenced animal-related measures and any other actions taken affecting animals.

Incumbents have voting records, but for new challengers, endorsements are based upon questionnaire responses. We urge you as voters to review candidates'questionnaires, legislative reports, and candidate websites, and decide for yourselves which candidate(s) should be elected.

Only Legislative districts with endorsed candidates are listed. In some districts, there are no endorsements. We urge you to review voting records, and if available, questionnaires.

Please contact HVA for questions, comments, or for further information on candidates.

Tammy Pursley is challenging incumbents Russell Pearce and Mark Anderson. Pursley responded favorably to the survey. We are unable to endorse Rep. Mark Anderson because of his grade on the legislative report card. However, we acknowledge his favorable responses to the HVA questionnaire. We recommend either candidate over Russell Pearce, and urge voters in this district to carefully review all documents and make their own decisions.
